LARGEST GLASS HOUSE WEST OF THE MISSISSIPPI RIVER

CONDIE-NEALE GLASS CO.
ST. LOUIS
PREFACE

In presenting a catalog of SPECIALTIES to the trade, we feel that we are giving the glass buyer a valuable reference book of ACCESSORIES, and while we are headquarters for "ALL KINDS OF GLASS FOR BUILDING PURPOSES," we take this means of reminding our friends that we are also large distributors of every sort of accessory in connection with the glass business.

Our plant is one of the largest in the United States devoted exclusively to the glass business, and our facilities for the prompt and efficient handling of all orders are unsurpassed by any other house in the country. Located within the 2500 block on North Broadway, the principal thoroughfare of St. Louis, and extending back to our own railroad switch, we receive and ship our goods with a minimum of breakage, time and expense.

It is well for the prudent buyer to know that we carry at all times an immense stock of Polished Plate Glass in highest grade, and whether it be an office building, a dwelling, show-case, store front, counter top or anything of Plate Glass, we are prepared to supply the need.

Also our stock of Window Glass is perhaps the largest and most complete in the country, and our quality is always to be relied upon.

Our Mirrors are strictly guaranteed.

We operate our own shops, and our organization is made up of the most expert and reliable men in this line of business. We have the largest Beveling plant in the West—a complete Leaded Glass shop, Kilns, and Studios, Electro Plating Department, Silvering Department operating to the largest capacity and manufacturing Mirrors under the most approved processes, Chipping and Grinding, Etching and Sand Blast works.

No order too large for our capacity. None too small for our personal attention.

Condie-Neale Glass Company
FRENCH PICTURE GLASS

Registered Trade-Mark
First Quality French Picture Glass
"BENTON" BRAND
(Paper-Packed.)

Extra select high-grade quality especially imported for the finest picture framing purposes.

"BENTON" BRAND

Picture Glass is very carefully selected and inspected at the factory in Belgium, and packed with paper between each light.

We recommend this Glass for quality and invite comparison with any other makes or brands at similar prices.

WE MAKE “HAND MIRRORS” TOO
POLISHED PLATE GLASS TOPS FOR FURNITURE, DESKS, WINDOW SILLS, TABLES, ETC.

The beauty of a plate glass covering for fine furniture is recognized everywhere.

A desk top or table top of glass offers a clean, sanitary polished surface, presents an elegant appearance and protects, preserves and beautifies the rich grained wood, which might otherwise become damaged, scratched or dirty in constant use.

For covering fine fancy-work on the dressing-table or buffet, for the library dining-room or bedroom furniture, the plate glass top is as useful as it is beautiful.

For protecting the top of office desk or table and as a covering for maps or memoranda, plate glass has come into general use.

All sizes and any pattern or shape furnished promptly at most reasonable prices.

MISSISSIPPI

FLORENTINE GLASS

For doors, transoms and all styles of partitions to admit and diffuse light, yet obstruct the vision.

Sizes up to 42” wide and 110” long. Thicknesses $\frac{1}{8}$ and $\frac{1}{6}$ of an inch.

Cut sizes, $\frac{1}{8}$” (to required dimensions)………………………………20c sq. ft.

Florentine in cut size box lots, packed same as window glass 16c “

Stock Sheets, $\frac{3}{4}$” (packed in cases containing 350 to 500 square feet, in any even inch width)…………………………………………………………………………………………………………………………………………………………………………………………13 1/4 “

$\frac{3}{4}$” thickness, add 4c sq. ft. to $\frac{3}{4}$” prices.

Special prices for orders in large quantities.

MISSISSIPPI

SYENITE GLASS

Originally designed for deck lights in passenger coaches and generally favored for small lights and particularly attractive in leaded work.

It denies view but provides ample diffusion of light.

Sizes up to 42” wide and 110” long. Thicknesses $\frac{1}{8}$ and $\frac{1}{6}$ of an inch.

THE RAILROAD TRACKS ARE AT OUR DOORS—OUR PLANT IS VERY LARGE—OUR GOODS ARE KNOWN TO BE THE BEST—WE NEVER OVERCHARGE.
MISSISSIPPI
MAZE GLASS

For interior use in all Banks and Office Buildings or any mercantile building which is apt to be divided into numerous offices or sections by glass partitions.

Sizes up to 42" wide and 110" long. Thicknesses $\frac{1}{8}$ and $\frac{3}{8}$ of an inch.

MISSISSIPPI
ROMANESQUE GLASS

A new and attractive pattern scientifically laid out in a succession of prismatic circles so as to give the maximum diffusion of light and at the same time distribute it equally in all directions. Can be set at various angles without a decided contrast between adjacent lights in the same partition.

Sizes up to 48" wide and 110" long for $\frac{1}{8}$" thick and 60" wide and 110" long for $\frac{3}{8}$" inch thick.

Cut sizes, $\frac{1}{8}$" (to required dimensions) ........................................... 20c sq. ft.
Stock Sheets, $\frac{1}{8}$" (packed in cases containing 350 to 500 square feet, in any even inch width) .......................................................... 13c...

$\frac{3}{8}$" thickness, add 4c sq. ft. to $\frac{1}{8}$" prices.
Special prices for orders in large quantities.

RUSH YOUR ORDERS IN TO US, THE GOODS WE'LL RUSH RIGHT BACK: THE ROAD SUCCESS LEADS TO OUR PLACE, AND WE BUILT THE TRACK.
MISSISSIPPI
“PENTECOR”

Made especially for cotton mills, woolen mills, factories, warehouses and all manufacturing buildings. This glass produces the maximum amount of light diffusion; it is easily cleaned and has an ideal cutting surface.

VITROLITE

"BETTER THAN MARBLE"

A pure white sanitary glass for table tops, wash stands, soda fountains, wainscoting and structural work. Superior to marble in appearance and finish. Highly polished. Non porous.

VITROLITE

can be cut, drilled, beveled, etc., with perfect results, and the highly polished surface is absolutely impervious to water or stain.

For restaurant tables, counter tops, soda fountains, refrigerators, bath rooms, this material is unsurpassed, and its ribbed back surface insures rigid setting in cement or against side walls, etc.

WE DO NOT HANDLE PAINTS
"PERFECTION" PATENT FRONTS
ALL GLASS SHOW WINDOWS.

A   B   C

THE THREE PARTS SHOWING THE "A. B. C.'S" OF THE COMPLETE CLAMP.
Made of Brass and the best Spring Steel. All Parts Heavily Nickel Plated.

No Holes
Drilled
Through
The Glass.

Sectional Drawing Showing The Clamp In Position.

THE PERFECTION GLASS CLAMP
Is superior to any other on account of its Simplicity, Strength, Safety and Beautiful Appearance.

The ease with which this clamp is adjusted appeals to every mechanic, and
The "Play" or "Give" to the flexible spring-guard (B) appeals to every architect.
This is the only clamp on the market so equipped, and is covered fully by letters patent.
We invented this clamp after many years experience in show case construction and after using every other make on the market.
Our invention is the outcome of a great deal of experiment with patent front show cases and fills the long felt need of a secure clamp embracing a safety or vibration adjustment.
Made to any angle and in any finish.

OUR CORNER CLAMP "PERFECTION" MAKES AN IDEAL CONNECTION
GLAZIER'S DIAMONDS

UNIVERSAL DIAMOND
This diamond the most inexperienced hand can use with good results

PERFECTION BLOCK DIAMOND GLASS CUTTER (ADJUSTABLE.)

The simple adjustment of the diamond insures a perfect cut in the hands of the least experienced. The tuft of felt cleans the glass in the path of the diamond and only the weight of the hand is required. Dip the felt in coal oil or turpentine, and keep straight edge or rule clean and smooth.

Heavy diamond for cutting Plate Glass.
Regular diamond for cutting single or double strength window glass.

A GOOD DIAMOND IS A GOOD FRIEND
THE "PERFECTION" GLASS BOARD

Lower Side of Rule.

Upper Side of Rule.

An indispensable article to all dealers in Window Glass, and will save its cost in a short time.

Can be instantly adjusted to cut glass of any size in eighths, quarters, halves and inches. This board is strongly made of well-seasoned lumber and will always remain true. It is ruled both ways in inches with steel rule on front end graduated in inches and eights. The straight edge or rule is adjustable, being fitted at each end with adjustable gauges, connected with and moving simultaneously equal distances by connecting rod, and as it is impossible to move one end more than another, an absolutely straight line is secured. It has a wedged point at the top end and a lug at the bottom end and readily fits into one inch spaces, provided at both top and bottom of board, and at any point desired. For cutting even inches the connecting rod is turned back as far as it will go and secured there by a set screw. It is then dropped into the one-inch spaces at both top and bottom of board at any point desired, and is thus firmly held in place and ready for the cutter. The rule is fitted with a very simple device by which it can be moved forward and backward and readily set for cutting fractions of inches. When several lights of glass of the same size are to be cut, and the screw is once set, every one will be of exact size.

Per gross $13.50 per dozen 1.40

No. 200. Heavy and large, reliable and durable, blue finish, weight 15 lbs. per gross.
Per gross $18.00 Per dozen 1.80

No. 300. Medium weight knob handle, red finish, fine quality, weight 13 lbs., per gross.
Per gross $18.00 Per dozen 1.80
No. 300½. Same Cutter, packed in separate containers.
Per gross $18.50 Per dozen 2.00
Other styles of all kinds.

Glazier's Point Hammer.

FOR GLAZIERS (AND FRAMERS)

With this hammer, glass can be set quicker and with more security than the old-fashioned way. Note the triangular head—its shape permits it to be laid flat against the glass, no matter in what position you hold the handle when driving the points, and you can hammer away without danger. The triangular head is reversible, of tool-steel and will last a life time. The other end is of malleable iron in the shape of an ordinary hammer. It is fully nickle plated and will appeal to any practical glazier at a glance. We fully guarantee every hammer. Price $2.00 each.

WE SELL THE BEST, FORGET THE REST
ROTARY OR CIRCLE GLASS CUTTERS

No. 9. Square rod prevents head from turning, nickel plated.
Cutting 3” to 20” 70c each
Cutting 3” to 40” 90c each
Extra cutter heads 30c each

No. 10. Same as No. 9 except has solid brass base with rubber entirely covering bottom. $6.00 ea.

CONDIE-NEALE GLASS CO.

Perfection Prism Tiles

Our Perfection Pressed Prism Tiles are made from the best crystal white glass, either in 4"x4" or 5"x5" squares. The fancy border tiles give a distinctly artistic appearance as shown in the sectional drawing. Our regular tile prism work is set in hard-metal glazing, either zinc finish or copper-plated, and with ornamental border tiles, all lights sufficiently re-enforced with invisible steel-cored bar to make them solid and rigid. Our pivot ventilators are mounted in steel standards, and the ventilator sash is practically dust-proof and non-leaking. The spring latch is durable and easy working, and the adjustment simple. Castings of solid brass. Stationary frame and ventilator swinging frame of angle iron.

Geometric designs of Sheet Prism set in metal or copper-plated, furnished in the very highest class of workmanship and material. C. N. G. Co.'s. Prism Tiles are the most efficient and beautiful on the market.

See page 27 for description and prices of sheet prism.

We manufacture art glass for all purposes; residences, furniture, public buildings, church or memorial windows.

Bookcase lights repaired.

Send pattern for bent glass replacements.

Special figured glass for kitchen cabinets.

MIRRORS AND OLD LOOKING GLASSES RESILVERED.

EVERY DEPARTMENT A SUCCESS
HE noted critic who said that “art is the manifestation of human emotions” struck the keynote of success in leaded glass making.

His general definition applies directly to this industry and gives the builder of any art window a foundation upon which he develops proper and harmonious subjects in line and color.

Some simple design which inspires the deepest feeling is more appropriate in many instances, and fulfills a greater need than those extremes which may lack refinement and harmony with the surroundings.

We shall be glad to submit our ideas in connection with any decorative scheme where leaded glass is considered, and our designers will show you the most artistic effects with every consideration for economy of cost.

If you are in the market for leaded glass of any kind, send us sizes and descriptions, and we will send one of our Complete Art Catalogues showing a variety of designs and color effects, for home, church or public buildings.

STATE WHAT YOU REQUIRE, WE’LL FULFILL YOUR DESIRE

EVERYTHING IN A RESIDENCE RADIATES TO OR FROM THE LEADED GLASS.

page Forty-two
Send description of your requirements, colors desired and sizes of openings—get our special designs.

THE CASUAL OBSERVER OR THE CRITIC, FORMS HIS OPINION OF YOUR TASTES, AS MUCH FROM THE LEADED GLASS AS ANYTHING ELSE IN YOUR HOME.
Kawneer construction provides the merchant with the greatest possible exposure of glass consistent with strength—the all-glass effect being secured at the lowest rate of insurance placed upon plate glass.

All glass is set from the outside and rests upon metal setting blocks capped with leather cushions. A spring, friction grip holds the glass firmly yet fully allows for contraction and expansion, also for inequalities in glass thickness. The yielding metal insures safety of glass.

Kawneer Store Fronts offer a construction which diverges from the old-time wood construction and its attending evils at every point.

Kawneer is simple of construction, practical in design and can be installed by any mechanic using ordinary care.

Kawneer material is equally adaptable to the simplest and the most complicated styles of Store Fronts.

Kawneer was the first—the Original Construction by which Store Front Glass could be set directly between two metal bearing surfaces, without the assistance of putty, cork, wood or any other cushion substance.

"KAWNEER" NOT "COME NEAR"
Kawneer Bars and Sash afford the same grip between the bolts as is found at the bolts—the tension is equally distributed along the edges of the glass.

MORE THAN A THOUSAND NEW CUSTOMERS EVERY YEAR AND STILL TAKING CARE OF THE OLD ONES

page Forty-six
Coulson Corner Bars, Division Bars and Store Front Construction have increased in popularity during the past twelve years, and we recommend this style of installation for Plate Glass Fronts. This construction combines strength and beauty, and embraces all the practical features of the combination-metal-covered, wood-core and steel reinforced bars. All glass is set from the outside which allows replacement without disturbing illuminating fixtures, or show-window decorations. Easy to install and furnished complete ready to set in place.
